

Year 2 Legacy Project

The children at Newton Solney CofE (VA) Infant School care about each other and their beautiful school. The children's opinions and viewpoints are valued and help to shape our school into a nurturing and inclusive family environment. Each year, our Year 2 children (The Swallows) take time to 'reflect' on their time at Newton Solney. As part of this, they consider what we could do in school to make our school 'even better' for future generations. Our Year 2 children, supported by school staff and FoNSS design and facilitate a series of fundraising events to raise monies.

Events may include:

- Craft and cooking sales
- Sponsored events
- Funds raised at the Summer and Christmas Fairs

In the summer term the Year 2 children will present their Legacy gift to the school and take part in an official grand opening. This way the children get to also enjoy the gift themselves with the younger children for the last term.

This opportunity enables our pupils to further develop and embed the school Do Be Values of:

- **Kind:** look for ways to enhance the school.
- **Friendly:** to think about others and how to make the school even better for future generations.
- **Responsible:** be able to act responsibly e.g. conduct fundraising activities.
- **Respectful:** liaise with adults and children to help raise monies.

The combined efforts of our outgoing Year 2 children each year will truly help to make our school 'even better'.

2024 Legacy Project- Installation of a Mouse House for the main playground.

2025 Legacy Project- Creation of a football goal mural.

2026 Legacy Project- Creation of shaded and calm games area within the playground.

Thank you to all our Year 2 children for their ongoing compassion for our school.

'I can do all things through God, who gives me strength'

Philippians 4:13
