

## Our Light-Switching Policy

**Helping Our Planet - One Switch at a Time!**

### Why?

We want to save energy and look after our Earth. Turning off lights when we don't need them helps keep our planet happy!

### Our Rules:

1. **Lights On When Needed**
  - We keep lights on when it's dark or we need to see clearly.
2. **Lights Off When Leaving**
  - If we leave the classroom or hall, we switch off the lights.
3. **Natural Light First**
  - If the sun is shining and we can see well, we use daylight instead of lights.
4. **Everyone Helps**
  - Children and grown-ups can remind each other to turn off lights.

### Our Promise:

We will be **Energy Savers** and help our school be green!

**'I can do all things through God, who gives me strength.'**
